

# **Universal City Solid Waste RFP and Contract**

## **Addendum #1**

**February 3, 2026**

Q: In the RFP, there is wording that all vehicles have to be 4 years old or newer at the start of the contract. Does that mean each individual vehicle must be 4 years old or newer, or that the average of all the vehicles at the start of the contract needs to be an average of 4 years old?

Response: At the start of the new contract, any/all trucks shall each be no older than four (4) years of age.
